

# Advanced Procurement in Oracle Release 12

The Oracle Advanced Procurement Release 12 offers you:

- Enhanced Catalog Management available to requestors, buyers and suppliers
- Contractor and contingent worker support in iProcurement
- Advanced approval support for Requisition Management and Supplier Onboarding
- A Professional Buyer's Work Center for improving daily productivity
- Support for Complex Contract Payments
- iProcurement, iSupplier Portal, Services Procurement, Sourcing Purchasing and Oracle Procurement Contracts

The Oracle Advanced Procurement module in Release 12 offers all organizations a comprehensive solution for reducing costs and delivering added-value to procurement-related activities.

You can add new modules such as Sourcing Optimization to your existing Purchasing solution or leverage the enhancements in Release 12 for streamlining the procurement business processes. Whether your organization relies on supplier collaboration and transaction activities or is inclined to manage and execute purchasing

contracts, the enriched Release 12 functionality offers a best of class solution for your business needs. IT Convergence (ITC) is one of the few consulting partners that is ready to help companies realize the value of this latest Oracle applications release. ITC has already contributed to successful R12 Upgrade projects for several organizations. The results our clients have seen in the Procure to Pay processes have been clear and measurable. ITC is uniquely positioned in the market with one of the best Professional Services organizations and consultants geared to meet the challenges of your upgrade or implementation projects and all of your procurement or supplier collaboration initiatives. When you partner with ITC, you also benefit from the fact that we "Taking Our Own Medicine." That means that we use Oracle internally. We can ensure that Oracle delivers results for you because we have succeeded in developing Oracle solutions that have worked for us.

### SERVICE FEATURES AND BENEFITS

ITC's Procurement Subject Matter Experts (SME) have gained experience from working on multiple Procure to

## Advanced Procurement in Oracle Release 12

Pay projects. This experience allows them to deliver more value while reducing the overall project cost. ITC also reduces costs by reusing configuration, setup and test script documents from past projects. Likewise, our Internal Knowledge Management initiative helps us capture learnings and best practices from successful projects, helping us shorten the time between project 'kickoff' and 'Go Live'. Our Consultants have specific expertise in Oracle iProcurement, Services procurement and iSupplier Portal modules gained from both local implementations as well as global rollouts.

### ITC QUALIFICATIONS

- Subject Matter Experts with multiple Oracle E-Business Suite upgrade and implementation projects
- Specialized expertise in iProcurement, Services procurement and iSupplier Portal along with Oracle Purchasing
- Business-focused consultants who understand and can help clients overcome common pain points
- Accelerated approach for project

execution and ensuring quality deliverables

- Global reach matched with local expertise
