

# Oracle Release 12 Roadmap Workshop

Unsure if you are ready to migrate Oracle Applications Release 12? Looking for assistance in planning and preparing your migration? If you answered ‘yes,’ then you can jump-start your R12 planning process with the IT Convergence Oracle R12 Roadmap Workshop. The R12 Roadmap Workshop’s objective is to develop an overall vision for future business processes by evaluating and recommending whether an R12 upgrade or a re-implementation strategy is right for you. This will allow you to:

- Identify options for a seamless, global Oracle Applications R12 deployment
- Outline business benefits, investments and key value drivers
- Define quality assurance and risk mitigation procedures
- Develop a high-level timeline and resource estimates for the proposed migration approach
- Review and map key business requirements against standard R12 functionality
- Catalog current customizations and interfaces and identify candidates for replacement with standard R12 functionality
- Evaluate systems foundation and master data definitions for future business requirements

## R12 INTERACTIVE WORKSHOPS

The R12 Roadmap Workshop consists of a series of interactive discussions between your key business and IT users and IT Convergence’s Oracle R12 experts. IT Convergence (ITC) offers these workshops to provide an opportunity to review, define, and summarize the key assumptions and challenges that underlie an R12 implementation. During these sessions, ITC will guide you through the information gathering process, and discuss your business process flows and business requirements. Next, ITC will help you map your business requirements to Oracle Applications Release 12 functionality. At the workshop’s conclusion will be prepared to define a high level project charter and project plan.

## DEFINE ROADMAP: FROM PROJECT PLAN TO BUSINESS CASE

IT Convergence (ITC) compiles and presents the workshop’s findings to your Executive and Management teams. This information will allow you to finalize priorities, establish a project charter and define a project plan. Because of the R12 Roadmap Workshop you will be able to:

## R12 ROADMAP WORKSHOP HIGHLIGHTS

- Conduct parallel activities across global organizations focused on business process enablement and the supporting value proposition
- Facilitate Leading Industry Business Process Reviews and Identify Improvement Opportunities and Priorities
- Prepare Strategic Implementation Roadmap for Business Flows and Enabling Technology Recommendations
- Conduct Business Case Analysis to estimate Investment and Benefit for Business Decisions
- Deliver Actionable Roadmap, Project Go-forward Plan and Business Justification

## Oracle Release 12 Roadmap Workshop

- Outline specific strategic enterprise advantages
- Identify process improvements for operational efficiencies
- Define a successful, proven migration strategy
- Present a comprehensive business case to your management team

IT Convergence's Professional Services division and its Program Management Office (PMO) will work with you during the R12 Roadmap Workshop and throughout your entire project to help you simplify the complexities of a global implementation. ITC's services are designed to help you define a strategic vision, communicate that vision throughout your organization, and mobilize the resources necessary to ensure that this vision becomes a reality.
