

Oracle Release 12 Case Studies

IT Convergence (ITC) can help you take full advantage of the Oracle E-Business Suite Release 12. ITC has already helped more than a half dozen companies successfully make the transition to R12, and this set of case studies illustrates how we've helped these clients achieve their business objectives.

ITC's complete services portfolio includes Consulting, Support, Education, Development and Web Services, giving you an unparalleled degree of service to support your R12 Project.

A WATER SUPPLY SYSTEMS MANUFACTURER DECIDES TO GROW ITS BUSINESS ON R12

This Water Supply Systems Manufacturer had outgrown its legacy system and chose to upgrade to Oracle R12 to gain a state of the art and scalable IT platform, which involved deploying Oracle Financials R12 and Oracle HRMS R12. With Phase I completed on-time and on-budget, this company now has:

- A fully-tested Oracle E-Business Suite R12 architecture
- Begun establishing a robust and fully integrated ERP system
- Improved operational and financial reporting capabilities
- Automated manual processes with workflow-controlled checkpoints

A DIGITAL CONTENT PROVIDER PLANS GLOBAL R12 MIGRATION TO UNIFY DISPARATE SYSTEMS

This Digital Content Provider turned to ITC for high-level guidance after it had decided to deploy the Oracle E-Business Suite R12 globally. Thus far, this company has been able to:

- Test and document its E-Business Tax migration to R12
- Implement Advanced Collections in R12 and prepare BR. 100
- Design a global project plan to upgrade its UK and US offices from 11.5.8 and to rollout Oracle Release 12 to its offices in Spain, Germany, France, Canada, Australia, Hungary, and Japan

A YOUTH ORIENTED MARKETING FIRM SELECTS ITC TO HELP IT PERFORM A RAPID PLATFORM MIGRATION AND R12 UPGRADE

The company chose ITC because ITC showed that it could perform a quick, on-budget R12 upgrade, and because ITC offered it first-rate hosting facilities. When the project is complete, ITC will have:

- Upgraded the Youth Oriented Marketing Firm Oracle E-Business Suite from 11.5.5 to Release 12
- Co-located the company's Oracle environment to ITC's platform neutral, SAS 70 Type II Certified Hosting center
- Provided the company's employees with on-the-job training on navigating and using R12

IP ACCESS INNOVATOR RELIES ON ITC FOR R12 EXPERTISE IN CHINA

This IP Access Innovator partnered with ITC because it needed specialized expertise to support the China phase of its global Oracle Applications R12 upgrade. Consultants from ITC's Shanghai office conducted the CRP's and UAT, validated data conversion efforts, and lead customization testing. With its China R12 upgrade complete, the company succeeded in:

- Implementing both the Oracle R12 Financials and Advanced Supply Chain Planning tracks
- Eliminating multiple system integrations that existed in its 11i instance
- Streamlining financial reporting functions by taking advantage of new OU (operating unit functionalities) in Oracle R12

IT Convergence has the experience to ensure that your R12 project is a success. Contact us today to learn more about how we can help you enjoy the latest benefits available in the Oracle E-Business Suite Release 12.
